INCA LIFTS

STANDING THE TEST OF TIME

Heavy Vehicle Lifting Equipment

Axle Stands

Capacity per stand.....7500kg
Max. height.....1775mm

Battery Operated Power Train Lift

Lifting capacity.....1500kg
Power.....12V DC 1.8kw
Max. height.....1800mm

Protective Covers

Forklift Lifting Kit

Safe Working Limit (SWL).....9000kg

Light Vehicle Adapter

Safe Working Limit (SWL).....9000kg

Trailer Bridge Lifting Kit

Safe Working Limit (SWL).....15000kg

INCA KP55-C MOBILE LIFTING COLUMNS

Cabled Hydraulic Drive

The Inca KP55-C Mobile Column Lift is a state-of-the-art lifting solution designed to enhance productivity and safety in various industrial and workshop environments.

Key Features:

- ✔ **Cable Connectivity (Hose Reel):** The communication cables fitted with hose reels allows for the elimination of tangled cables, or cables on the floor. This feature enhances flexibility and safety during lifting operations and movement.
- ✔ **Mechanical Locking Safety system:** With manual mechanical locking safety system ensuring maximum safety for both the operator and asset during lifting, and when “parking” at the working height.
- ✔ **Substantial Lifting Capacity:** With a lifting capacity of 5500 kg, this column lift is perfect for a wide range of applications. making it ideal for servicing light vehicles, trucks, buses, and heavy assets.
 - **2, 4 or 6 posts per set – 11T, 22T or 33T capacity**
- ✔ **Substantial Lifting Capacity:** – with 2 x 12V batteries that are charged via a standard 230V single-phase power point, there KP55-C is ideal for any workshop. More importantly, it means the hoists can be used virtually anywhere in a workshop — or even outside.
- ✔ **User-Friendly Interface:** Designed for ease of use, the intuitive touch screen makes operation straightforward for users of all skill levels. Built-in safety features help ensure secure lifting and minimize risks.
- ✔ **Durable and Reliable Construction:** Made from high-quality materials, the Inca Mobile Column Lifts are engineered for durability and longevity, making it a reliable choice for demanding workshop conditions.
- ✔ **Adjustable Lifting Tines** - The adjustable fork tines ensure a wide range of vehicles can be lifted, increasing the versatility of use whether it be a small car through to large trucks.

The Inca 5500kg Cabled Column Lift is an essential tool for workshops, its powerful lifting capacity, battery powered and user-friendly features make it a standout choice for enhancing safety and efficiency in heavy lifting tasks.

INCA IL55/75 MOBILE LIFTING COLUMNS

Wireless Hydraulic Drive

The Inca IL55/75 Wireless Column Lift is the next generation in mobile lifting columns specifically designed for the Australian market. Combining innovative technology with robust engineering, this wireless lift is ideal for heavy lifting tasks.

- ✔ **Mechanical Locking Safety system:** With mechanical locking safety system ensuring maximum safety for both the operator and asset during lifting, and when “parking” at the working height.
- ✔ **Lifting Capacity:** With a lifting capacity of either 5500 kg or 7500kg per post, this column lift is perfect for a wide range of applications, including automotive servicing, equipment maintenance, and industrial lifting.
 - **IL55 set size of 2 to 16 posts – 11T to 88T**
 - **IL75 set size of 2 to 16 posts – 15T to 120T**
- ✔ **Wireless Control System:** The top-of-the-line wireless communication system eliminates the hassle of tangled cables.
- ✔ **Product Features:**
 - **Weighing Readings** - With built-in weighing reading feature gives operators real-time feedback of the asset's weight during the lift — adding an extra layer of insight and safety awareness to every job.
 - **Crawl Mode** - the precision crawl mode allows fine, controlled adjustments when millimetre-level positioning matters.
 - **Communication Distance** – Up to 100m across the set
 - **Adjustable Tines** - For rim sizes R10 - R22.5 (320mm – 560mm)
 - **Safety Warnings** – Safety Alarms will sound for different actions of the Ascend / descend.
- ✔ **Durable and Reliability:** Made from high-quality materials, the Inca Wireless Column Lift is engineered for durability and longevity, making it a reliable choice for demanding workshop conditions.
- ✔ **Flexibility and Mobility:** The lift is equipped with smooth-rolling wheels, allowing for easy movement within the workspace. Its compact design fits seamlessly into various workshop layouts, optimizing space utilization.

The Inca Lifts IL55/75 Wireless Column Lift is an essential tool for modern workshops and industrial settings. Its powerful lifting capacity, wireless operation, and user-friendly features make it a standout choice for enhancing safety and efficiency in al workshops.

INCA QJZ-5.0 MOBILE LIFTING COLUMNS

Cabled Mechanical Screw Drive

The Inca QJZ-5.0 Mobile Lifting Column is a tried and tested lifting solution tailored for heavy vehicles repairs and service workshops. Renowned for its robust design and exceptional performance, this mechanical column lift is a must-have for any workshop focused on efficiency and safety.

Key Features:

- ✔ **Lifting Capacity:** 5000kg per column and up to 30 tons with six columns, making it ideal for servicing trucks, buses, and other heavy equipment.
 - **2, 4 or 6 posts per set – 10T, 20T or 30T capacity**
- ✔ **Screw Drive System** – With a tried and tested screw drive system that has proven its reliability for decades. The 3-Phase motor powers a drive screw, which turns a drive nut to raise and lower the carriage with a consistent speed for enhanced finer movements.
- ✔ **Power Requirements** - 32 amp 3-phase 440V power to operate. The posts are connected communication cables, which minimise potential communication delays and allow for instant operation.
- ✔ **User-Friendly Controls:** The intuitive controls make operation straightforward, and a handheld cabled remote control ensures easy and simplified operation.
- ✔ **Durable Construction:** Built from high-quality materials and designed to withstand the demanding conditions of heavy vehicle workshops, promising durability and low maintenance over time.

The Inca QJZ-5.0 Mobile Lifting Column are a versatile and efficient solution that elevates lifting tasks in any workshop setting. With its powerful capabilities and user-friendly features, it stands out as a leader, enhancing productivity and safety in heavy vehicle maintenance and repairs.
